

Revolutionizing Fitness

Investor Pitch for an Innovative app

IronCore Fitness

ironcorefitness.LLC.com

Presented By:

**Joseph Gomez, Carlos
Cardona, Bircan Sahin**

Initial AI Profiling & Onboarding

Users complete an initial setup with their metrics and goals so the system can generate a custom baseline workout plan.

Personalized Fitness Starts Here

AI-Powered Setup

Core AI & System Features

IronCore Fitness intelligent tools
powering your transformation:

Dynamic AI Coach — continuously adapts your daily routines and recommends local trainers for in-person guidance.

Progress Check-Ins — submit regular physical updates so the AI can recalibrate routines and push past plateaus.

Analytics Dashboard — a visual hub tracks workout history, weight trends, consistency streaks, and nutrition adherence.

Strict High-Contrast UI — black-and-white aesthetic ensures vibrant workout photography pops without darkening overlays.

IronCore Fitness

Nutrition & Access

Custom Nutrition Goals

Track daily intake against AI-generated macros and manually build custom foods for unlisted meals.

\$15/Month Membership

Affordable subscription grants full access to AI coach, nutrition tools, and gamified rewards system.

UPC Barcode Scanner

Integrated camera scanner reads physical barcodes on food packaging to automatically log nutrition facts.

Secure Data Handling

Backend securely stores user check-ins, payment tokens, and points ledgers for privacy and accuracy.

IronCore Fitness

Gamification & Rewards Hub

Earning Points

Users earn points for verified gym check-ins and completing daily AI workouts.

Location Validation

Location services securely validate physical gym attendance to prevent fraud.

Redeeming Prizes

Spend accumulated points in the marketplace for branded apparel and supplements.

Biometric Verification

Wearable integrations verify active exertion during workouts for legitimacy.

Gamification & Rewards Hub

IronCore Fitness fair play principles:

Anti-Manipulation Design – strict daily point caps ensure users must put in consistent physical work over time.

Consistent Effort Required – rewards are earned through sustained dedication, not shortcuts or exploits.

Fair Points System – balanced algorithms prevent gaming the system while rewarding genuine achievements.

Legitimate Achievement Recognition – only verified workouts and check-ins contribute to your rewards balance.

IronCore Fitness

Market Opportunity

➔ "Growing Demand"

The demand for at-home fitness solutions is rapidly growing, and Iron Core Fitness stands out with innovative AI personalization, gamified rewards, and tiered memberships to capture this market potential.
